Calculator is to assist in converting an even lump sum donation into cost per Minute format. Match the Lump Sum Donation with the values at the BOTTOM of the chart. View up the column above the Lump Sum amount to the line corresponding with the length of air time the pilot expects to fly (shown in the left most column). The resulting number is the donation per minute to render the total Lump Sum negotiated with the Donor.

EXAMPLE: A \$50.00 Lump Sum Donation to a pilot expecting to fly for 1 1/2 Hr (90 minutes) would require a rate of \$.56 per Minute.

**NOTE:-**

**Move the decimal point for amounts of \$100 and more.**
